

Why should you purchase an Extended Service Agreement?

1. Investment in the Future -

The minimal cost of this plan would be well worth the investment should you need repairs on covered equipment.

2. Purchase repair cost in today's dollars -

The way the cost of living is increasing, know that you are covered with parts and labor prices in today's dollars – not future inflationary prices.

3. Increase your home's value -

The service agreement is transferable, for a small fee should you sell your home. Not only does it add value, but a worry free extended service agreement is a good value to new home buyers.

4. Rest comfortably in mind and body -

Lochinvar provides legendary comfort for home heating. Now you can have peace of mind knowing that you are covered with an Extended Service Agreement. *

Ordering and Fulfillment Process

- Contact your installing contractor to order and install your KNIGHT, Solution or Efficiency+ Boiler.
- Request a 5 or 10 year Extended Service Agreement from your installing contractor.

Fulfillment of the Extended Service Agreements:

- Your installing contractor will contact Service Net and arrange the Extended Service Agreement.
- In the unlikely event your boiler needs parts or repairs, contact your installing contractor and you are covered!*

All extended service agreements, administration and correspondence will be handled directly between the installing contractor with Service Net, the plan administrator.
